

BRAS AND BREAST PROSTHETICS

After Breast Surgery

This is a guide to bra and prosthetic services in Waterloo Wellington. Contact the businesses in this handout for more information about the products they sell or services they offer.

What is a Breast Prosthetic?

A breast prosthetic is a piece of foam, silicone, or other material, worn inside a bra. A prosthetic can help to give a natural shape to the breast after having surgery to remove breast tissue. Getting a bra or prosthetic after surgery is a personal choice.

You may want a prosthesis if:

- You're not sure you want to have breast reconstruction
- While waiting for reconstruction surgery
- You decide you don't want to have any more surgery

Financial Support

If you are looking to buy a prosthesis, the cost can vary from store to store. Government programs, personal health insurance, and some community organizations can help you pay for the cost of prosthetics. Explore options below to see if you qualify:
